

Case Study

Learn about our customer success stories.

THE CHALLENGE

A California-based lender was frustrated at the inaccuracy and long lead time of the feasibility reports they were receiving from their previous vendor.

SOLUTION

1. Reviewed prior reports to identify the errors they were experiencing from the previous vendor.
2. Collaborated on a project portal which enabled our client to enter their projects and order draw inspections.
3. Our detailed required document list was instrumental in providing a smooth report turn time.

RESULTS

Our team reviewed the errors and listed information needed to avoid inaccuracies.

A format that identified the risks allowed for a quick digestible report.

Clear communication of progress from start to finish.
